

## ULTIMATE TEXAS HOLD'EM

Ultimate Texas Hold'em is a casino game based on the version of Poker known as Texas Hold'em. Before any cards are dealt, the Player must make two equal wagers called the Ante and the Blind. Then the Dealer will deal five cards face down known as Community Cards. Each Player and the Dealer will then be dealt two cards face down. He/She will then have the option to either bet three or four times the Ante as a Play bet or he may Check and do nothing. The Dealer will then turn over three community cards. At this point any Player that has already bet Play may not bet again. If the Player Checked, he will have the option to bet two times his Ante as a Play bet or again, he may Check. The Dealer will then turn over the final two community cards. Any Player that has already bet Play (3 or 4 times or 2 times) may not bet again. All other Players must now either bet one time his Ante as a Play bet or he must Fold, forfeiting all his Ante and Blind wager.

Each Player and the Dealer are trying to make the best possible 5-cards Poker hand using their initial 2-card deal, plus the 5 community cards. The Player or Dealer may use 3, 4 or all 5 of the community cards to make his hand.

The Dealer needs at least a pair to qualify.

Should the Dealer not qualify, the Player will be paid as follows:

Ante-Push

Play-Will be paid considering the hand is higher than that of the Dealer at 1 to 1

Blind-Will be paid considering the hand is higher than that of the Dealer and is paid following the below pay table with the hand having a straight combination or higher.
